Insist on MoPar when you buy!
MoPar Radios

You can see that a MoPar radio is designed for your car! It fits perfectly. Its beautiful dials and controls blend with the instrument panel.

You can hear why a MoPar radio is your wisest choice!

You enjoy better tone, ultra-clear reception, unusual power and sensitivity. You get finer performance because a MoPar radio is engineered to fit the acoustics of your car.

PUSH-BUTTON TUNING

Switch instantly from one station to another at the push of a button! You can reset push-buttons to other stations yourself. Do it from front of radio... no special tools required.

MANUAL TUNING

Dial tuning is simple for stations not set for push-buttons. You will appreciate this convenience on out-of-town trips. Big dial has indirect illumination to match other instrument lighting.
SIX-TUBE SETS (including rectifier)

Push-buttons for tuning in four stations and for tone control. Clear reception provided by new miniature tubes. Bantam beam tube increases power. Rich tone assured by 5" x 7" dynamic speaker of permanent-magnet type that saves battery current. Ask for a demonstration of these fine, moderately priced sets!

EIGHT-TUBE SETS (including rectifier)

Enjoy finest in auto radio reception and wonderfully clear tone. Automatic electric tuning . . . five station push-buttons. Large 6" x 9" oval permanent-magnet dynamic speaker reproduces both high and low notes faithfully. Powerful new miniature tubes. Be sure to hear this set if you want the best.

SHARP, CLEAR RECEPTION

Rugged new miniature tubes improve reception. Compensating devices keep set in tune despite temperature and humidity changes.

FAITHFUL, CONTROLLED TONE

Tone control permits you to select tone you prefer—"voice," "mello" or "bass." Permanent-magnet speaker saves battery current.

Mopar Antennas

Mopar telescopic antennas assure best results from Mopar radios. Mount on car fender. Chrome-plated.

Standard length Mopar antenna, for use where reception is normal, extends 50' above car fender.

Extra long antenna is recommended where radio signals are weak. Extends 82 1/2" above the fender.

Mopar Vacuum Antenna

This convenient antenna is extended easily from inside your car! You control it with a push-pull switch mounted on left side of instrument panel. Positive action. Heavy chrome-plated brass tubing and stainless steel construction. Ask us to show you how this handy antenna works!
Comfort...AS YOU LIKE IT

MoPar All Weather Comfort Systems

You can drive in perfect comfort in any weather when you have a MoPar All Weather Comfort System in your car!

This marvelous new motoring aid keeps your car snug and warm in winter...keeps your windshield free of ice. In summer, it ventilates your car with fresh air from outside. Whatever the season, you enjoy draft-free fresh air that reduces annoying, dangerous window-fogging.

These new MoPar All Weather Comfort Systems give you more room in your car. Heating and blowing mechanisms are under the hood where they are out of the way. Only the attractive chrome-plated control panel is visible. What’s more, all controls are convenient...right at your fingertips!

Better Heating
Your feet and legs stay warm...yet you avoid stuffiness at head level...by heating from the floor up! Warm air pressure inside car keeps drafts out.

Fresh Air
Close your car windows in bad weather and still enjoy perfect ventilation! This ventilation freshens the inside of your car in summer, even in slow traffic.

Clearer Vision
Warm air blowing onto windshield melts ice and snow quickly. Constant air circulation throughout the car dispels window fog.

Greater Legroom
Heating and blowing units are out of the way under the hood. Provides greater freedom for your legs...more room to "stretch out" during long drives.

Chrysler Corporation-engineered for safe and dependable comfort
Mopar All Weather Comfort System
Model No. 500 or 550

Automatic temperature control maintains air at warmth you want. Large-size heating unit has ample capacity for coldest weather. Air flows along floor from full-width distribution duct under dash. Two fans—one to increase air intake when needed and a booster fan for defrosting. Fresh air can be drawn in during hot weather. Ask for demonstration!

Mopar All Weather Comfort System
Model No. 300

Large-size heating unit. Temperature and fresh air flow are regulated by a single control—from full “off” position...through summer ventilating...to full “on” position. There is a V-shaped distribution duct below dash, with openings on both sides, that directs fresh air along the floor to heat both the front and rear compartments. Come in and see this model!

Mopar All Weather Comfort System
Model No. 100

This economical model provides heating and defrosting in winter...ventilation in summer! Forward motion of car scoops air in at normal road speeds. Powerful blower fan speeds air movement as needed. V-shaped distribution duct directs air toward floor below dash. Push-pull controls operate water and air valves, fan and defroster damper. Ask for details today!

Mopar Recirculating Type Heater
Model No. 70

Compact unit mounts below dash...provides plenty of output for heating and defrosting. Louvers direct heat toward both driver and passengers. Only two simple controls. Rotary switch below instrument panel controls motor speed. Push-pull defroster shut-off is mounted on heater. If you want a dependable, modestly priced installation, get our figures on this!
